## EDUCATION

---

**Sarvajanik College of Engineering & Technology** logo Sarvajanik College of Engineering & TechnologyS

*B.sc.IT*

## EXPERIENCES

---

**White Orange Software — Flutter Developer**

2024

*4001, 4th Floor APMC, Krushi Bazaar, Sahara Darwaja, Begampura, Surat, Gujarat 395002*

- During my 6-month internship as a Flutter developer, I had the opportunity to work on a full-stack food delivery application. This experience allowed me to gain hands-on knowledge and practical skills in mobile app development using Flutter.

## PROJECTS

---

**Food App** | *Flutter*

[link](#)

- Developed a comprehensive food delivery application using Flutter. The app features secure user authentication, restaurant listings, detailed menus, order placement, real-time order tracking, payment integration, and user reviews. Integrated backend services with Firebase/Node.js to manage user data, restaurant information, and orders, ensuring a seamless user experience. Demonstrated expertise in both frontend and backend development, creating a scalable and efficient solution.

**NFT Marketplace** | *NextJS, Solidity*

[link](#)

- Developed a decentralized NFT marketplace platform using blockchain technology. The platform enables users to buy, sell, and showcase their digital art and NFTs. This project aims to provide a secure, transparent, and user-friendly interface for artists and collectors to interact with digital assets.

**Translate English To Malay GPT** | *Python*

[link](#)

- Developed an advanced language translation tool that leverages the power of GPT (Generative Pre-trained Transformer) to translate text from English to Malay. This project aims to provide accurate and contextually appropriate translations, enhancing communication and understanding between English and Malay speakers.

## ACHIEVEMENT

---

**The Indian Institute of Information Technology, Allahabad hackathon finalists**

- Participated in the Prayagraj Mahakumbh 2025 Hackathon from January 2024 to March 2024, organized by the Indian Institute of Information Technology Allahabad and sponsored by Prayagraj Mela Pradhikaran, Uttar Pradesh. Collaborated with a team to present the idea "Maha Kumbh Navigate" under the theme "Service Level Benchmarking for Assets, Inventory, Facilities and Utilities Monitoring and Management." The project involved the application of drones, QR codes, and facial recognition technologies for efficient management and monitoring.

## TECHNICAL SKILLS

---

**Blockchain, DataScience, ML, Flutter, MERN:** JS, Java, IPFS, Solidity
